**Licence Application and Renewal Form**

**This form must be read, filled in and signed by the student or the parent / guardian if the member is under eighteen years.**

Karate is a Martial Art. This means that it is a combative system, which involves physical movements that are designed to both attack and defend oneself. The training is of a robust nature and a great deal of physical exertion is one of the requirements of a practitioner. There are many sports where physical contact is made such as rugby, football and boxing, and injuries can occur in all, as they can in less physical sports such as tennis and rowing. By joining a Karate Club you are placing yourself in an environment where you will practise with others. Some of the movements are practised on each other, and whilst every effort is made to minimise accidents, there are occasions where these can happen. The accidents that do occur are usually of an impact type injury such as bruising.

As a student progresses through the grades, he or she may decide to take part in competitions. There is a higher risk of injury in these situations because of the competitive edge. A student is prepared for this aspect of Karate in a different way to enable them to compete fairly and without injury.

Whilst injuries may occur, they are at a minimum and serious injuries are all but unheard of within this type of Karate. The robust nature is not for everyone and by joining this club you are agreeing to be trained in a physical Marital Art / Sport, where injuries do occur.

Possession of this licence will ensure that you are covered by Public Liability insurance which provides indemnity for your legal liability for damages including claimant legal costs arising out of accidental injury to any person and member to member liability.

*I wish to join / renew my membership\* for the ..... Dojo.  
I agree to undertake all aspects of training (where I can and wish to) and be guided by the instructor in the safest way of undertaking this type of physical exercise. I accept that injuries do occur, but every effort will be made to ensure that this is avoided wherever possible.*
